## AWNING FABRICS

Safe and protected, our external shading fabrics, don't just look great, they offer unbeatable solar heat block, along with optimum glare and the highest UV protection. Only the finest solution dyed colourfast fibres make it into the weaving of our fabrics. Woven using the strongest warp and weft construction, using air jet looms that guarantee a hi-tensile weave and confectioned under perfect tension for exceptional dimensional stability, our fabrics are produced to last a lifetime. Finished with a unique TEXgard coating for outstanding water repellency and durability.
